Stream 1: Facade Improvement Grant

* indicates a required field

Objectives

The primary objective is to provide financial support to commercial property owners to undertake high quality façade improvements to enhance the visual appearance and function of their building. This will increase street appeal, attract an increase in patronage and commercial occupancy within the town centres and stimulate the economy.

This program is designed to reinvigorate all our urban centres across the region and is part of an overall strategy to stimulate investment in the Central Highlands Regional Council area.

Façade repairs and improvements create active frontages and enhance the street appeal for pedestrians. Improvements that provide shade, points of interest, aesthetic appeal and easy access contribute to the walkability of our streets, which brings health, social and economic benefits.

Please read the [Rise Up Central Highlands booklet](#) and the [Economic Stimulus Policy](#) before lodging your application.

Stream 2: Built Heritage Grant

Objectives

The Built Heritage Grant is intended to financially assist owners to conserve, restore and protect buildings or structures included in the Local Heritage List or otherwise identified on the Heritage Overlay in the Central Highlands Regional Council Planning Scheme. It is part of an overall strategy to stimulate investment in and attraction to the Central Highlands Regional Council area.

This program is designed to improve the appearance or structural integrity of the buildings in a manner that is sympathetic with their heritage significance. The works funded through this program will visually enhance the local streetscape and public realm and develop community understanding about the importance of heritage conservation. Funding is available for engagement of subject matter experts and building conservation works.

Please read the [Economic Stimulus Policy](#) and the [Rise Up Central Highlands booklet](#) before submitting your application.
